

Upload videos into Microsoft Stream

To access **Stream**, log into Office 365 and click on the app launcher, then the Stream icon. If it does not show in the main list, click on **All Apps** and you will find it there.

[For a video of this guide and more please visit the Microsoft website.](#)

Start uploading videos

Click the Upload icon  at the top of the page.

Alternatively, just drag and drop new videos to one of your Stream groups or channels. You can upload multiple videos at the same time and even browse Microsoft Stream while your videos are uploading in the background.

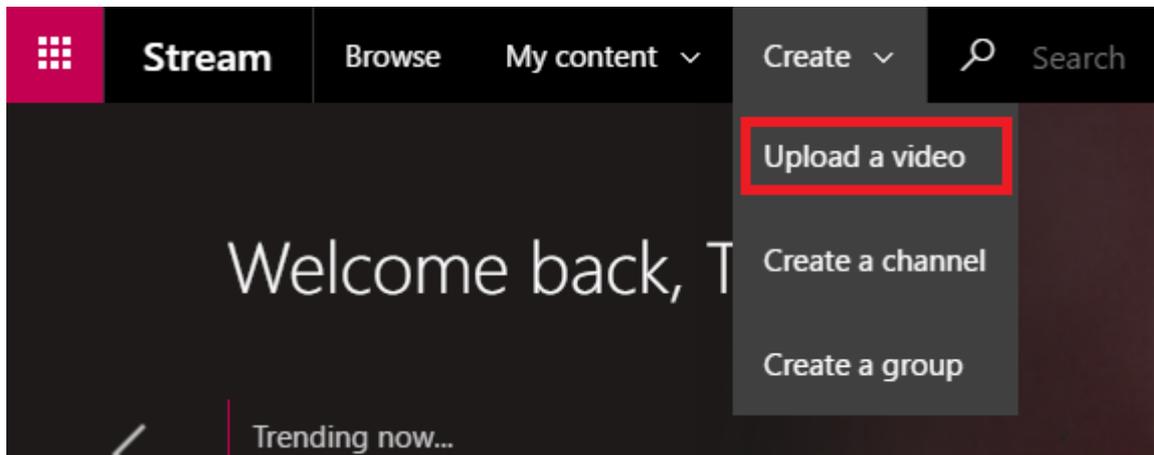

There are several options for uploading videos. Depending on where you start your uploads from, different default permissions will be set on the videos, but you can always change them afterwards.

See this article for in-depth information on [video permissions](#).

Upload from any page

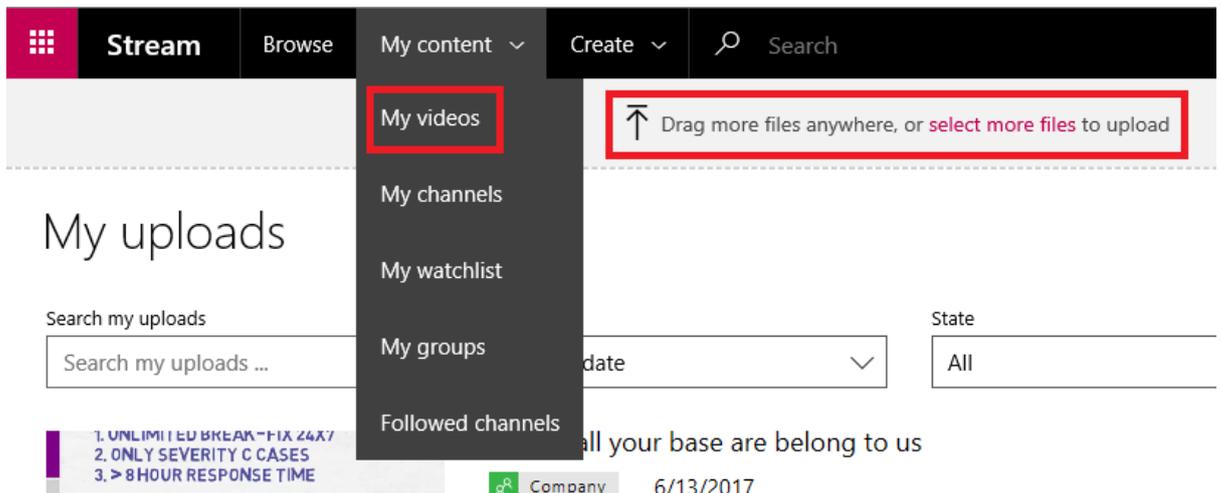

To upload from any page:

1. In the Microsoft Stream portal, select **Create > Upload a video** or the upload icon from the top navigation bar
2. Drag and drop or **select files** from your computer or device.

To upload from Videos page:

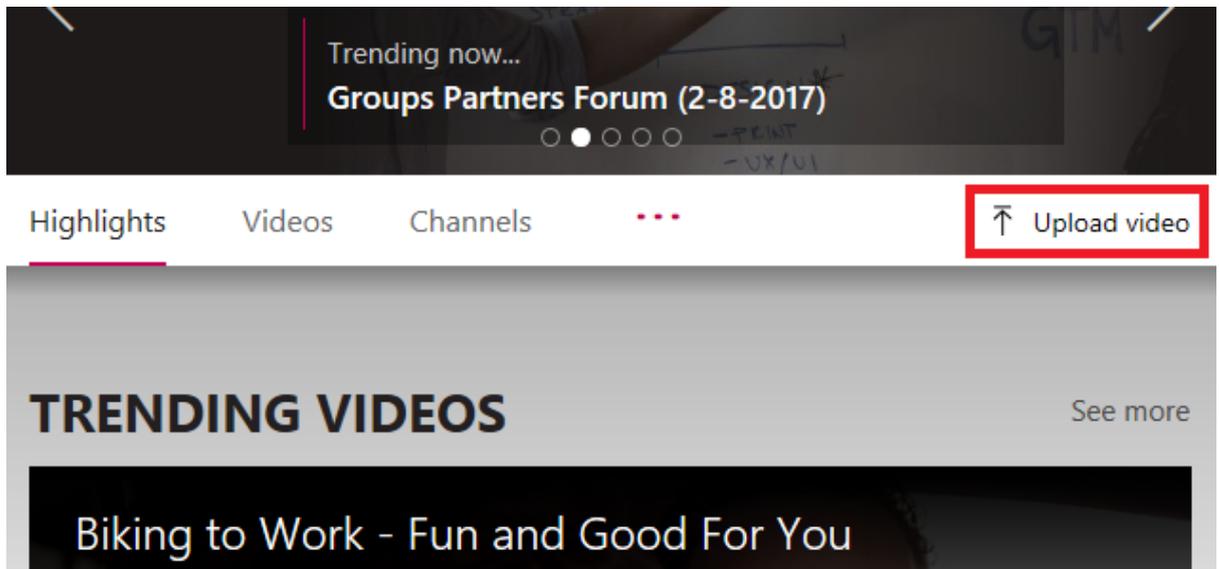

1. In the Microsoft Stream portal, select **My content > Videos** from the top navigation bar
2. Drag and drop or **select files** from your computer or device

Upload directly to a group or channel

To upload to a group:

1. In the Microsoft Stream website, navigate to a group that you can contribute to
2. Select the **Upload video** button on the group's navigation bar or drag and drop videos when on the group's **Highlights** or **Videos** tab

To upload to a channel:

1. In the Microsoft Stream website, navigate to a channel that you can contribute to
2. Click **Select more files** or drag and drop videos directly to the channel page
